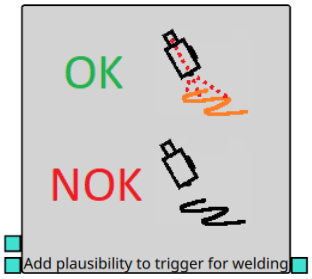
Precitec Macro Documentation

04 Add plausibility to trigger for welding

Changelog

Date	Version	Autor	Tested on	Description
2023-03-07	A	Wre	5.19.13	New documentation

Description



Adds plausibility to the welding trigger. Skips welds if plausibility is bad.

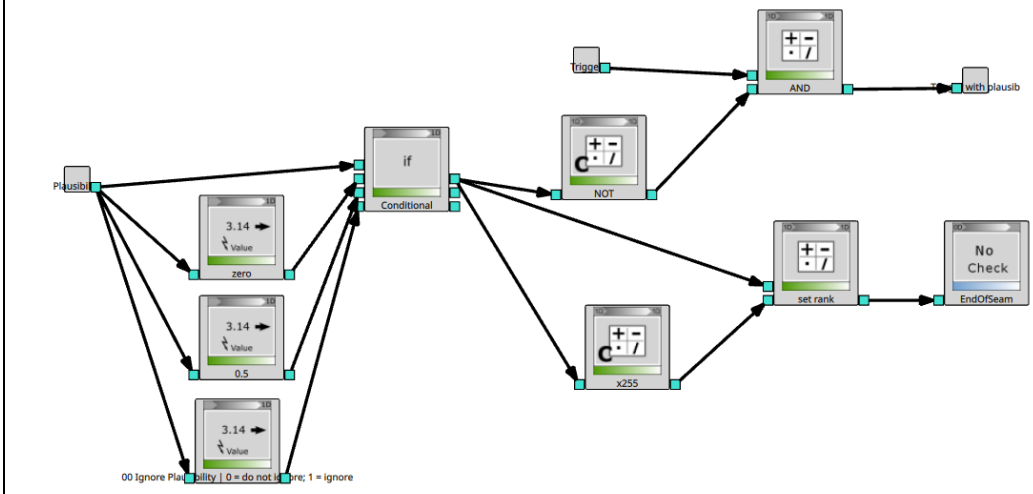
I1: Trigger

I2: Plausibility

O1: Trigger with plausib

© Precitec

- **Macro structure**



Adds the plausibility to the welding trigger. In case there is no plausibility the welding will be skipped. “0” is a good plausibility value & “1” is a bad plausibility value.

- **Parameter**

NAME	VALUE	Description	UserLevel
00 Ignore Plausibility | 0 = do not ignore; 1 = ignore → Number	**0**	Possibility to turn off the plausibility check and not skip the welding	Operator
